EXPERIENCE

Red Code Technology, Lahore (Remote Internship)

August 2023 – October 2023

Developed the front end of website using HTML, CSS and Bootstrap.

Created responsive and user friendly web pages and gained practical experience.

PROJECTS

Amazon Clone | HTML5, CSS3

- Developed a responsive e-commerce web application that mimics the Amazon website.
- This project involved creating a user-friendly interface and implementing essential e-commerce features such as product listings, search functionality, and a shopping cart system.

Simple Calculator | HTML5, CSS3, Javascript

- Developed a responsive calculator application that performs basic arithmetic operations.
- User-friendly interface with buttons for digits and operations.

Tic-Tac-Toe Game | HTML5, CSS3, Javascript

- Designed a responsive user interface with HTML and CSS.
- Implemented game logic and user interactions using JavaScript.
- Integrated features like win detection, draw conditions, and game reset functionality.

Weather App | HTML5, CSS3, Javascript

- A user-friendly weather application that allows users to check the current weather conditions of any city.
- The app fetches data from the OpenWeatherMap API and displays information such as temperature, humidity, weather description, and wind speed.

Personal Portfolio | HTML5, CSS3, Javascript

- Developed a responsive and interactive personal portfolio website. The portfolio showcases my projects, skills, and experience in web development
